“High Country K9 trailing seminars may be a little different than other seminars, in that we break each component of trailing in to separate exercises:

- *Scent discrimination*
- *PLS*
- *Line handling*
- *Reading the dog*

We believe that by teaching the team this way, we can see what the issues are with each team, work on that, then put the whole thing together to make an efficient, reliable trailing team.

An instructor will walk with each team on every trail.”
